

Letter from:

Ludwik Rydygier Collegium Medicum in Bydgoszcz, Nicolaus Copernicus University, in Poland. (attachment 6) regarding joining the IACFS/ME

Department of Hygiene, Epidemiology and Ergonomics, Division of Ergonomics and Exercise Physiology we thank you for your attention to ME/CFS.

We are the group of clinicians, researchers and our mission is to promote the exchange of ideas related to Chronic Fatigue Syndrome (CFS), patient care and non-pharmacological and pharmacological treatment in Poland.

At present moment we are going to establish (October 2015) the ME/CFS scientific association in Poland. We would like to ask you if there is a possibility to become a formal representative of IACFS/ME in Poland?

We are cooperating with the prof. Julia Newton (Institute for Ageing and Health, The Medical School, Newcastle University) in the ME/CFS diagnosis and treatment field.

Please feel free to contact me or Prof Julia Newton for recommendation or any other questions regarding our research team.

We are looking forward to cooperating with the IACFS/ME in the near future.

With kind regards,

Pawel Zalewski

Head of The Division of Ergonomics and Exercise Physiology
